Care & Maintenance

Our powder-coated finishes are designed for both indoor and outdoor use, providing lasting durability with the right care.

- Clean regularly with warm water, mild detergent, and a soft cloth.
- Rinse thoroughly to remove any detergent residue.
- Avoid abrasive cleaners, steel wool, pressure washers, steam cleaning, and harsh solvents, as these may damage the finish.
- Wipe away dirt, leaves, fertilisers, salt, and other debris promptly to help maintain the surface.
- Lift furniture when moving it rather

than dragging it to minimise scratches and chips.

- Touch up any minor chips or scratches as soon as possible to protect the coating and prolong the life of the product.

With regular care, your Moort Designs furniture will continue to perform beautifully for years to come.

Warranty

Moort Designs powder-coated products are manufactured to the highest standards using quality materials suitable for indoor and outdoor environments.

Our warranty covers defects in materials and workmanship under normal residential or commercial use. Normal wear, including scratches, chips, fading from prolonged UV exposure, corrosion resulting from harsh coastal or chlorine-rich environments, accidental damage, misuse, or lack of maintenance, is not covered.

To maximise the lifespan of your furniture, we recommend following the care and maintenance guidelines above. Please contact Moort Designs if you have any questions regarding product care or warranty support.

The background of the image is a warm, golden-yellow color with a subtle, wavy wood-grain pattern. A large, semi-circular cutout is positioned on the right side of the image, revealing a solid white background behind the text.
